

# Junior Portfolio Manager (f/m/d) · 100%, Zurich

With around 50 employees across locations in Zurich, Basel, and Kreuzlingen, we are one of Switzerland's leading independent asset managers, offering our clients first-class and comprehensive wealth management services.

With you, we will strengthen the support and implementation of our investment strategies and jointly develop first-class solutions for our discerning clientele.

You stand out with your dynamic, committed personality, your initiative, your team spirit, and your strong sense for financial markets and technological solutions.

## Your impact

- You support our team in the management, optimization, and implementation of discretionary asset management mandates.
- You work on tailored, top-tier investment concepts for our discerning clients.
- On the one hand, you use existing software solutions effectively to automate and optimize processes. On the other, you are eager to drive the modernization of our workflows with new digital solutions.
- Through your market observations and analyses, you help identify and promptly implement important trends.
- Your work contributes significantly to expanding and enhancing our portfolio management offering.

## Your profile

- Completed studies (Bachelor's or Master's) in Economics, Finance, Mathematics, Statistics, or a comparable discipline
- Basic knowledge of financial products (stocks, bonds, funds, ETFs) and a foundational understanding of capital markets
- Initial practical experience in portfolio management or related fields
- Proficiency with MS Office products, especially MS Excel. Experience with applications like VBA, Power BI, or Power Automate is desirable.

# SoundCapital™

- Interest in technological solutions and a strong aptitude for digital tools and automation
- Teamwork and communication skills
- Excellent analytical skills, high sense of responsibility, and structured working style, paired with quick comprehension
- Initiative and willingness to continually develop
- Motivation for certification (e.g., CFA, CIAA) or comparable further education is a plus
- Client orientation
- Flexibility and resilience to adapt quickly to changes in a dynamic market environment
- Strong German and English language skills; knowledge of additional languages is an advantage

## What we offer

- You will find a varied and autonomous role in an independent company.
- We will guide you step-by-step in your new tasks and both challenge and support you.
- You have the opportunity to take on responsibility early and drive your own projects.
- We foster open communication and short decision-making processes to ensure your ideas are heard.
- We rely on modern tools and software solutions to make your daily work efficient.
- You can expect an attractive work environment and modern workplaces in the heart of Zurich, with excellent public transport connections.
- Depending on the role, we offer the possibility for flexible and mobile working.
- In addition to attractive working conditions and five weeks of vacation per year, numerous benefits and a great team spirit complete our offering.
- On top of that, you have the chance to contribute to the success story of SoundCapital.

## Sounds good, doesn't it?

Seize the opportunity and get in touch with us without obligation. We look forward to getting to know you.

## SoundCapital in a nutshell

- We manage assets worth over CHF 4 billion
- With a team of around 50 experts
- Based in Switzerland – at the pulse of the financial world
- Regulated by the FINMA
